25X1A

SUBJECT: T. S. Document 89059

1. In response to your request, the following comments re the Subject are made:

Insert B
A. Paragraph 1a of Subject under "responding to orbit peace needs", the originators of the Subject ask for types of action which should be recommended. The following are suggested: the USSR stop using the Soviet military to enforce slave labor policies in the USSR and satellite countries; the USSR allow free-elections, with UN observers present, in the satellite countries; the Soviet Union give more freedom to Soviet-controlled workers in the free world; and that representatives of the International Communist Party in the free world stop preaching for world revolution and drumming up hate against economic systems other than their own.

Insert C
B. Paragraph 1b of Subject re "combating cleavages"---It would appear to me that the "foreign state of mind" indicated by the beliefs, doubts, and resentments expressed in this subject paragraph have been caused by true newspaper articles prepared by AP, UP, and other news reports emanating directly from the United States. It would appear to this officer that, if the present administration would take forceful positive actions which would also be reflected in the afore-mentioned press reports throughout the world--then follow up these actions with positive overt and covert propaganda, such beliefs, doubts, and resentments would soon disappear.

C. Paragraph 2 of Subject---The "regaining the initiative" can, in my opinion, best be done by actions indicated in the preceeding paragraph.

D. Paragraph 3 of Subject---This paragraph was obviously not written with Western Hemisphere in mind. However, sub-paragraphs b, e, and g might be used in the Western Hemisphere. Actions, as indicated in those paragraphs could best be accomplished through strategic use of "black" psychological warfare materials. As has been noted many times by this

officer and others, the "black" program of WHD is hampered by inadequate "black" facilities in the field.

2. As you have noted, these comments are too late to meet the dead-line set forth in the Subject, however, they are submitted for whatever they may be worth.
